Overview
Methodist University Hospital is hosting its second annual Stroke and STEMI leadership symposium for regional hospitals and health providers in West Tennessee, North Mississippi, and Eastern Arkansas. Join us as we collaborate with our regional partners on best practices and protocols for Stroke and STEMI patients. Physicians, Administrators, ED Directors, EMS Leadership, Stroke and/or STEMI Coordinators and Nursing Leaders are encouraged to attend and share their ideas.

Objectives

Upon completion of this course, participants will be able to:

- Participants will have knowledge of the Mission Lifeline Requirements for STEMI Systems of Care
- Participants will have knowledge of the current Class I Recommendations based on the 2013 ACCF/AHA Guideline for the Management of ST-Elevation Myocardial Infarction: A Report of the American College of Cardiology Foundation/American Heart Association Task Force on Practice Guidelines
- Participants will identify the drip and ship model
- Participants will be able to identify comprehensive stroke patients requiring advanced neurological care
