

SPECIALTY OF OPHTHALMOLOGY Delineation of Clinical Privileges

Criteria for granting privileges:

Current certification in Ophthalmology by the American Board of Ophthalmology, or the American Osteopathic Board of Ophthalmology and Otolaryngology.

Or

Successful completion of an ACGME, or AOA accredited post-graduate training program in Ophthalmology and board certification within 5 years of program completion.

Applicants will be requested to provide documentation of practice and current clinical competence as defined on the attached competency grid. Applicants have the burden of producing information deemed adequate by the hospital for a proper evaluation of current clinical competence, and other qualifications and for resolving any doubts.

Current Clinical Competence - MLH

In addition to the required education, experience and/or training specified on each DOP (Delineation of Privilege) form, documentation of current clinical competence is required. Current clinical competence is described as having “performed the privilege recently and performed it well”.

Current clinical competence is assessed prior to granting privileges initially and is reassessed when renewing privileges at reappointment – for maintenance of privileges. Current Clinical Competence (CCC) may be location specific (acute hospital care/surgery center (ASC) and/or age specific (adult, pediatric, neonatal).

This should not be confused with Focused Professional Practice Evaluation (FPPE)

- FPPE: an evaluation of clinical competence of all new privileges as performed at the specific licensed MLH facility (MHMH, MHOBH) for which they have been initially granted. This applies to privileges for all new applicants as well as to new/additional privileges for current members.

Both FPPE and current clinical competence assessments are privilege-specific. FPPE is conducted during the period after granting new/additional privileges. FPPE must occur at the MLH facility(ies) where privileges/membership are held. Current clinical competence may be evaluated from case logs provided by non-MLH facilities.

Current Clinical Competence: Requirements for New Applicants

- If applying directly from training, or based on the training received in a formal training program, provider should submit case* logs from the program authenticated by the program director along with their recommendation attesting to the comparable training, experience and qualifications relative to the criteria for the clinical privileges requested.
- If applying more than 1 year after training completion, submit the following:
 - Aggregate data from acute care or surgery center facility for the previous 12 month time period, identifying the top 10 diagnosis codes and the number of patients per code. Any complications/poor outcomes should be delineated and accompanied by an explanation.

- Procedure list from acute care or surgery center facility for the previous 12 month time period, identifying the top 10 CPT/ICD codes and the number of procedures per code. Any complications/poor outcomes should be delineated and accompanied by an explanation.
- Case logs (see specifications below) for any special privileges requested that meet the criteria specific for the number of procedures defined for current clinical competence.

Current Clinical Competence: Maintenance of Privileges for Current Members

- **For active staff members:** MLH source data will be aggregated to review cases and procedures performed. If this does not meet the minimum requirement for core and/or special privileges, the practitioner will be required to submit additional case logs from other facilities.
- **For courtesy staff members with low activity and for certain active staff with activity that has diminished and is now low:** Department chair recommendation should be obtained from their primary facility; and the practitioner should submit the following:
 - Aggregate data from acute care or surgery center facility for the previous 12 month time period, identifying the top 10 diagnosis codes and the number of patients per code. Any complications/poor outcomes should be delineated and accompanied by an explanation.
 - Procedure list from acute care or surgery center facility for the previous 12 month time period, identifying the top 10 CPT/ICD codes and the number of procedures per code. Any complications/poor outcomes should be delineated and accompanied by an explanation.
 - Case logs (see specifications below) for any special privileges requested that meet the specific number of procedures defined for current clinical competence.

Case Logs

All required case logs and/or procedure lists must contain the following information at a minimum: Date, patient identifier, CPT/ICD procedure code, diagnosis, complications, and disposition, and the facility name, name/title of the person authenticating the log, signature, date signed, and contact information. If the information requested is not available, please provide an explanation.

*A "case" is defined as an episode of care – either cognitive or procedural. For interpretive care, "case" is interpretation of one diagnostic study.

Ongoing Professional Performance Evaluation (OPPE)

OPPE is evaluated periodically (more frequently than annually) in the facility where membership/privileges are held.

To assure OPPE requirements are satisfied, the practitioner must periodically exercise the privileges in the MLH facility(ies) where he/she has membership. OPPE must occur regularly on patient encounters in the MLH facility(ies) where privileges/membership are held.

Specialty/Procedure Delineation of Privilege Form	Education/Training Documentation for Initial Granting	Initial Application (Proof of current clinical competence)	FPPE – Validation of competence after appointment and/or granting of a new or additional privilege (To be completed within one year)	Maintenance Requirements
Ophthalmology Core	<p>Current certification in Ophthalmology by the American Board of Ophthalmology, or the American Osteopathic Board of Ophthalmology and Otolaryngology.</p> <p>Or</p> <p>Successful completion of an ACGME or AOA accredited post-graduate training program in Ophthalmology and board certification within 5 years of completion.</p>	<p>Aggregate data from primary practice facility for the previous 12 month time period indentifying the top 10 diagnosis codes and the number of inpatients per code. Any complications/poor outcomes should be delineated and accompanied by an explanation.</p> <p>Procedure list from primary practice facility for the previous 12 month time period identifying the top 10 CPT/ICD codes and the number of procedures per code. Specialty/Procedure Delineation of Privilege Form	Education/Training Documentation for Initial Granting	Initial Application (Proof of current clinical competence)	FPPE – Validation of competence after appointment and/or granting of a new or additional privilege (To be completed within one year)	Maintenance Requirements
		complications/poor outcomes should be delineated and accompanied by an explanation.		

Specialty/Procedure Delineation of Privilege Form	Education/Training Documentation for Initial Granting	Initial Application (Proof of current clinical competence)	FPPE – Validation of competence after appointment and/or granting of a new or additional privilege (To be completed within one year)	Maintenance Requirements
<i>Trans Pars Plana Vitrectomy</i>	Successful completion of an approved training program in Vitro-retinal surgery.	Case log documenting the performance of at least 10 procedures within the previous 24 months	First 5 cases	Case log documenting the performance of at least 10 procedures within the previous 24 months
<i>Use of Laser</i>	Completion of an approved eight hour minimum CME course which includes training in laser principles and safety, basic laser physics, laser tissue interaction, discussions of the clinical specialty field and hands-on experience with lasers. A letter outlining the content and successful completion of course must be submitted, or documentation of successful completion of an approved residency in a specialty or subspecialty which included training in laser principles and safety, basic laser physics, laser tissue interaction, discussions of the clinical specialty field and a minimum of six hours observation and hands-on experience with lasers.		First 5 cases	Case log documenting 5 procedures within the previous 24 months
<i>Robotic Surgery</i>	Applicants whose formal surgical training included robotic surgery: Training director letter validating competence in robotic surgery OR Applicants without formal surgical training in robotic surgery: Training Certificate validating completion of a robotic surgery training course which included didactic and laboratory training	Applicants whose formal surgical training included robotic surgery: Case log from training reflecting applicant was primary surgeon OR If training logs are not available, privilege will be initially granted with a limit requiring five successful cases evidenced by retrospective review.	First 5 cases	Case log documenting the performance of at least 10 procedures over the previous 24 months

Specialty/Procedure Delineation of Privilege Form	Education/Training Documentation for Initial Granting	Initial Application (Proof of current clinical competence)	FPPE – Validation of competence after appointment and/or granting of a new or additional privilege (To be completed within one year)	Maintenance Requirements
		OR Applicants without formal surgical training in robotic surgery: Privilege initially granted with a limit requiring concurrent proctoring of five successfully completed cases.		

Ophthalmology Core Privilege:

Admit, evaluate, diagnose, evaluate, diagnose, treat and provide consultation, order diagnostic studies and procedures and perform surgical or non-surgical procedures on patients 13 years of age or greater, and allows the practitioner to treat pediatric patients 0-12 for emergent conditions only.

Access, stabilize and determine disposition of patients with emergency conditions consistent with the Medical Staff policy regarding emergency or consultative services.

The core privileges in this specialty include the procedures on the attached list and such other procedures that are extensions of the same techniques and skills.

Procedures:**Eye Procedures**

- Enucleation
- Evisceration
- Removal of Intraocular FB
- YAG iridotomy
- Iridectomy
- Trabeculotomy
- Trabeculectomy
- Cyclodialysis
- Diathermy
- Cryotherapy
- Conjunctival repair
- Conjunctival excision
- Conjunctival graft
- Free mucous membrane
- Sclera repair
- Sclera excision
- Sclera graft
- Lamellar keratoplasty
- Capsulotomy YAG
- Lens excision
- Cataract extraction
- Prosthetic lens
- Vitreous incision-injection
- Vitreous replacement
- Phacoemulsification
- Glaucoma Seton Surgery
- Jones Tube
- Dacryocystorhinostomy (DCR)
- Trabeculotomy
- Goniotomy

Lacrimal Procedures

- Lacrimal repair
- Lacrimal probing

Orbit Procedures

- Orbit exploration
- Orbit exenteration
- Orbit fracture repair
- Orbitotomy
- Kronlein approach
- Orbitotomy/Orbit Decompression
- Optic Nerve Sheath Fenestration

Retina Procedures

- Retinopexy
- Diathermy
- Cryo
- Scleral resection
- Scleral buckling
- Retinal Surgery

Strabismus

- Strabismus resection
- Strabismus recession
- Myotomy rectus surgery
- Horizontal rectus surgery
- Vertical rectus surgery
- Oblique muscle surgery
- Transposition of EOM

Lids and Adnexa

- Lids and adnexal repair
- Lids and adnexal excision
- Lids and adnexal graft

Cornea

- Photorefractive Keratectomy
- Corneal Ring Implants

Ophthalmology Pediatric Core Privilege:

Admit, evaluate, diagnose, consult and treat infants, children and young adults less than 13 years of age with acquired or congenital ocular diseases or disorders.

Access, stabilize and determine disposition of patients with emergency conditions consistent with the Medical Staff policy regarding emergency or consultative services.

The core privileges in this specialty include the procedures on the attached list and such other procedures that are extensions of the same techniques and skills.

- Corneal Transplants (penetrating keratorplasty)
- Keratolimbal Stem Cell Transplantation

Special: The physician requesting special privileges must meet the minimum criteria for the specialty core and demonstrate the appropriate post graduate training and/or demonstrate successful completion of an approved, recognized course when such exists, or other acceptable experience.

Administration of moderate sedation: See Credentialing Policy for Sedation and Analgesia by Non-Anesthesiologists.
Requires: Separate DOP, ACLS, NRP or PALS certification

Ophthalmology Clinical Privileges

Check below the particular privileges desired in Ophthalmology for each facility:

Please check (✓) applicable age categories for each privilege requested.

Privilege Description	Methodist Healthcare – Memphis Hospitals (MHMH) Germantown, Le Bonheur Medical Center, North, South & University, Outpatient Clinics & Diagnostic Facilities				Methodist Healthcare – Olive Branch Hospital (MHOBH)
	Neonates (0-28 days)	Infants (29 days– 2 Years)	Children & Adolescents (2-18 years)	Adults & Adolescents (13 & Above)	Adults & Adolescents (13 & Above)
Ophthalmology Core	Limited to Emergent Care				
Ophthalmology Pediatric Core					
Special					
Robotic Surgery					
Trans Pars Plana Vitrectomy					
Use of Laser					
Limitations	Clinical privileges are granted only to the extent privileges are available at each facility.				
	Darkly shaded areas represent privileges not available to any practitioner due to the privilege not being offered by the facility				

Acknowledgement of practitioner

I have requested only those privileges for which by education, training, current experience and demonstrated performance I am qualified to perform and for which I wish to exercise at the facilities indicated above, to the extent services are available at each facility, and I understand that:

- (a) in exercising any clinical privileges granted, I am constrained by facility and medical staff policies and rules applicable generally and any applicable to the particular situation
- (b) any restriction on the clinical privileges granted to me is waived in an emergency situation and in such situation my actions are governed by the applicable section of the medical staff bylaws or related documents
