

---

**General Information**

All applicants must meet the qualifications, conditions and responsibilities as set forth in MLH Credentials Policies. Policies are located on [www.methodistmd.org](http://www.methodistmd.org)

Applicants seeking appointment, reappointment, and/or clinical privileges have the burden of producing information deemed adequate by the Hospital for a proper evaluation of current clinical competence, character, ethics, and other qualifications and for resolving any doubts about an individual's qualifications.

Other requirements:

- Applicants will be requested to provide documentation of practice and current clinical competence as defined on the attached competency grid for initial granting and reappointment of privileges.
- This document is focused on defining qualifications related to competency to exercise clinical privileges. The applicant must also adhere to any additional organizational, regulatory, or accreditation requirements that the organization is obligated to meet.
- Privileges granted may be exercised only at the Hospitals that offer the service/specialty, have sufficient space, equipment, staffing, and other resources required to support the privilege.
- Requests for clinical privileges that are subject to an exclusive contract will not be processed except as consistent with the contract.

---

**Evaluating Current Clinical Competence at time of Reappointment:**

MLH Data will be obtained and analyzed as available from EMR reporting systems or Health Information Management.

If minimal activity/low volume, then the applicant should supply case logs from other facilities' HIM department or practice billing systems to meet the minimum requirement(s) to be considered for the privilege. Source of the logs must be denoted.

The preferable format for external case logs is Excel or PDF from the sourced system. Handwritten case logs are generally not accepted.

Case logs should include a blinded or partial patient number for case distinction, date of service, type of service (inpatient or outpatient), location of service, diagnostic code and/or procedure codes, and performing provider where applicable.

<b>Privilege</b>	<b>Initial Application: Required Education or Training</b>	<b>Initial Application: Current Clinical Competence:</b>	<b>Reappointment: Retrospective review of cases performed at MLH facility (FPPE)</b>
<b>Nurse Practitioner Core</b>	Current national board certification as a nurse practitioner AND Current, unencumbered license to practice as a Certified Nurse Practitioner, in the state of his/her practice, as applicable to the requested core privileges AND Current Drug Enforcement Agency (DEA) number or registration in the state of his/her practice, as applicable	Case log documenting 10 inpatient encounters during the previous 12 months at the practitioners primary practice facility	FPPE: First 5 cases
<i>Chest Tube Placement</i>	Documentation of training in procedure, supervising physician must validate	Case log documenting 5 procedures during the previous 12 months	FPPE: First 5 cases Case log documenting 5 procedures during the previous 12months
<i>Fine Needle Aspiration</i>	Documentation of training in procedure, supervising physician must validate	Case log documenting 5 procedures during the previous 12 months	FPPE: First 5 cases Case log documenting 5 procedures during the previous 12months
<i>Vas Cath Insertion</i>	Documentation of training in procedure, supervising physician must validate	Case log documenting 5 procedures during the previous 12 months	FPPE: First 5 cases Case log documenting 5 procedures during the previous 12months
<i>Peripherally inserted central catheters</i>	Documentation of training in procedure, supervising physician must validate	Case log documenting 5 procedures during the previous 12 months	FPPE: First 5 cases Case log documenting 5 procedures during the previous 12months

Privilege	Initial Application: Required Education or Training	Initial Application: Current Clinical Competence:	Reappointment: Retrospective review of cases performed at MLH facility (FPPE)
<i>Central Venous Access</i>	Documentation of training in procedure, supervising physician must validate	Case log documenting 5 procedures during the previous 12 months	FPPE: First 5 cases Case log documenting 5 procedures during the previous 12months
<i>Lumbar Puncture/ Myelogram</i>	Documentation of training in procedure, supervising physician must validate	Case log documenting 5 procedures during the previous 12 months	FPPE: First 5 cases Case log documenting 5 procedures during the previous 12months

## Scope of Service and Responsibility

Scope of service is based upon education, clinical training, demonstrated skills and capacity to manage procedurally related complications. The NP will collaborate with the supervising physician in admitting, managing care, and discharging patients from the hospital.  
The NP shall be in compliance with all applicable state and hospital rules including, but not limited to, supervision, protocols, patient reviews, and prescriptions.

## Clinical Supervision Requirements

The supervision of the NP will be compliant with all applicable state rules and regulations.

## Core Privileges:

Consistent with the intent of the state rules and regulations, privileges serve the purpose to maximize the collaborative practice of NP and supervising physicians in a manner consistent with quality health care delivery. Therefore, written agreements developed jointly by the supervising physician and the NP will guide the ongoing medical management of patients and the following privileges.

1. Perform and document initial and subsequent history and physicals. The supervising physician validates the final documented diagnosis after reviewing and confirming the history and physical findings within ten (10) days.
2. Conduct rounds, develop and implement patient management plans, record progress notes, and provide continuity of care. This is not in lieu of daily visits by the supervising physician or a physician who is responsible to cover for the supervising physician, if the physician is directly and primarily responsible for the patient's care (Refer to Medical Staff Rules and Regulations, Conduct of Care).
3. Assist the supervising physician in reviewing treatment plans and ordering tests and diagnostic laboratory/ radiology services.
4. Order therapies, using procedures reviewed and approved by the supervising physician.
5. Order medications, treatments, tests and IV fluids, including rehabilitation and respiratory therapy treatments/ services (both inpatient and outpatient) consistent with the scope of practice of the NP. Controlled substances may be prescribed consistent with state rules and regulations.
6. The NP may write prescriptions, and any prescription written and signed by the NP under the supervision and control of a supervising physician shall be deemed to be that of the NP. Controlled substances may be prescribed consistent with state rules and regulations.
7. Collaborate with supervising physician and other health care providers to provide patient care.
8. May prepare a discharge summary, include final diagnosis and procedures, and incorporate the physical findings, laboratory reports, and the patient's course in the hospital. In addition the summary will indicate the instructions given the patient in reference to diet, medication, physical activity, and follow-up care. The discharging physician will certify the completed medical record.

## Core Procedures:

- |  |  |                               |
|--|--|-------------------------------|
| a. Dressing: application, change, removal of | f. Urinary catheters: insertion, removal | k. Removal Vas cath/perm cath |
| b. Arterial and venous puncture, access      | g. Removal arterial lines                | l. Joint injections           |
| c. Incision and drainage of abscesses        | h. Removal chest tubes                   | m. NG tube placement          |
| d. Paracentesis                              | i. Removal or shortening of drains       |                               |
| e. Thoracentesis                             | j. Removal of sutures and staples        |                               |

**Process Protocol:**

The Nurse Practitioner, in collaboration with the supervising physicians, identifies the following evidence-based resources, texts, and reference documents that are applicable standards of care and provide the applicable process protocols for care management:

**Consultation:**

The Nurse Practitioner will be managing Primary, Secondary, and Tertiary care conditions for the above described patient population. In general, communication with a physician will be sought for all of the following situations and any others deemed appropriate:

- Whenever situations arise which go beyond the intent of the Protocols or the competence, scope of practice or experience of the Nurse Practitioner
- Whenever patient conditions fail to respond to the management plan in an appropriate time.
- Any rare or unstable patient conditions.
- Any patient conditions which do not fit the commonly accepted diagnostic patterns for a disease or disorder.
- Any unexplained physical examination or historical finding.
- At the request of the patient, the Nurse Practitioner or the physician.
- All emergency situations after initial stabilizing care has been started.
- Whenever a physician is consulted, a notation to that effect, including the physician's name, must be made in the medical record.

**Special Procedures:**

The applicant must provide documentation of current clinical competence in performing the procedure consistent with the criteria set forth in medical staff policies governing the exercise of specific privileges and the appended competency grid. Applicants have the burden of producing information deemed adequate by the hospital for a proper evaluation of current clinical competence, and other qualifications and for resolving any doubts.

Including but not limited to the following:

- Central Venous access (femoral, internal jugular, and subclavian)
- Chest Tube Placement: The non-emergent placement of a chest tube with the direct supervision of a physician
- Peripherally inserted central catheters: independent placement of PICC requires the documentation of completion of an approved course.
- Fine Needle Aspiration
- Vas Cath Insertion
- Lumbar puncture/ Myelogram

Unified Medical Staff: Memphis Hospitals & Olive Branch Hospital

Delineation of Clinical Privileges  
Specialty of Nurse Practitioner- Radiology

## Clinical Privileges

Check below the particular privileges desired in Radiology for each facility:

Please check (✓) applicable age categories for each privilege requested.

Privilege Description	Methodist Healthcare – Memphis Hospitals (MHMH) Germantown, Le Bonheur Medical Center, North, South & University, Outpatient Clinics & Diagnostic Facilities				Methodist Healthcare – Olive Branch Hospital (MHOBH)
	Neonates (0-28 days)	Infants (29 days– 2 Years)	Children & Adolescents (2-18 years)	Adults & Adolescents (13 & Above)	Adults & Adolescents (13 & Above)
Nurse Practitioner Core					
<b>Special Privileges</b>					
Central venous access					
Chest Tube placement					
Lumbar punctures/ myelogram					
Fine Needle Aspiration					
Peripheral inserted central catheters					
Vas Cath Insertion					
Specialty Focus: condition(s), disease(s) for the patient population (e.g. pediatric neurology, adult cardiology)					
<b>Limitations</b>	<b>Clinical privileges are granted only to the extent privileges are available at each facility.</b>				
	Darkly shaded areas represent privileges not available to any practitioner due to the privilege not being offered by the facility.				

### Acknowledgement of practitioner

I have requested only those privileges for which by education, training, current experience and demonstrated performance I am qualified to perform and for which I wish to exercise at the facilities indicated above, to the extent services are available at each facility, and I understand that:

- (a) In exercising any clinical privileges granted, I am constrained by facility and medical staff policies and rules applicable generally and any applicable to the particular situation
- (b) Any restriction on the clinical privileges granted to me is waived in an emergency situation and in such situation my actions are governed by the applicable section of the medical staff bylaws or related documents

Practitioner's Signature
