

General Information

All applicants must meet the qualifications, conditions and responsibilities as set forth in MLH Credentials Policies. Policies are located on www.methodistmd.org

Applicants seeking appointment, reappointment, and/or clinical privileges have the burden of producing information deemed adequate by the Hospital for a proper evaluation of current clinical competence, character, ethics, and other qualifications and for resolving any doubts about an individual's qualifications.

Other requirements:

- Applicants will be requested to provide documentation of practice and current clinical competence as defined on the attached competency grid for initial granting and reappointment of privileges.
- This document is focused on defining qualifications related to competency to exercise clinical privileges. The applicant must also adhere to any additional organizational, regulatory, or accreditation requirements that the organization is obligated to meet.
- Privileges granted may be exercised only at the Hospitals that offer the service/specialty, have sufficient space, equipment, staffing, and other resources required to support the privilege.
- Requests for clinical privileges that are subject to an exclusive contract will not be processed except as consistent with the contract.

Evaluating Current Clinical Competence at time of Reappointment:

MLH Data will be obtained and analyzed as available from EMR reporting systems or Health Information Management.

If minimal activity/low volume, then the applicant should supply case logs from other facilities' HIM department or practice billing systems to meet the minimum requirement(s) to be considered for the privilege. Source of the logs must be denoted.

The preferable format for external case logs is Excel or PDF from the sourced system. Handwritten case logs are generally not accepted.

Case logs should include a blinded or partial patient number for case distinction, date of service, type of service (inpatient or outpatient), location of service, diagnostic code and/or procedure codes, and performing provider where applicable.

Core Privileges

The core privileges in the following specialties include procedures outlined in lists and such other procedures that are extensions of the same techniques and skills.

Infectious Disease Core Privilege:

Admit, evaluate, diagnose, treat and provide consultation to patients of all ages, except as specifically excluded from practice, with infectious or immunologic diseases of all types and in all organs.

Access, stabilize and determine disposition of patients with emergency conditions consistent with the Medical Staff policy regarding emergency or consultative services.

Privileges include but are not limited to:

- Internal Medicine Core
- Management of an unusually severe infection such as tuberculosis, meningitis, disseminated tuberculosis, system mycosis
- Unusual infections in the immune-compromised host
- Aspiration of superficial abscess
- Interpretation of Gram stain
- Management of investigational anti-infective agents

Infectious Disease Pediatric Core Privilege:

Admit, evaluate, diagnose, consult, and provide care to children and adolescents—including newborns and infants except where specifically excluded from practice, with acute and chronic infectious or suspected infectious or immunologic diseases, underlying diseases that predispose to unusual severe infections, unclear diagnoses, uncommon diseases and complex or investigational treatments.

Access, stabilize and determine disposition of patients with emergency conditions consistent with the Medical Staff policy regarding emergency or consultative services.

Privileges include but are not limited to:

- Pediatric Core
- Management of infections caused by virus, fungi, bacteria, parasites, rickettsiae, or chlamydiae
- Application and interpretation of diagnostic tests, aspiration of superficial abscess
- Interpretation of gram stain; and management of investigational anti-infective agents

Internal Medicine Core Privilege:

Admit, evaluate, diagnose, treat and provide consultation to patients 13 and above admitted with both common and complex illnesses of cancer, infections and diseases affecting the heart, blood, kidneys, joints and the digestive, respiratory and vascular systems and treatment of common problems of the eyes, ears, skin, nervous system and reproductive organs.

Access, stabilize and determine disposition of patients with emergency conditions consistent with the Medical Staff policy regarding emergency or consultative services.

Inherent in core privileges are the following areas/procedures:

- Arthrocentesis
- Lumbar puncture
- Thoracentesis
- Exercise testing
- EKG interpretation

Pediatric Core Privilege:

Admit, evaluate, diagnose and treat patients, ages 0-18, for common illnesses and injuries including disorders common to general pediatric diseases and conditions.

Access, stabilize and determine disposition of patients with emergency conditions consistent with the Medical Staff policy regarding emergency or consultative services.

Privileges include but are not limited to:

- Bone marrow aspiration
- Burns, superficial and partial thickness
- I&D of superficial abscess
- Local anesthetic techniques
- Lumbar puncture
- Management uncomplicated minor closed fractures and dislocations
- Perform simple skin biopsy or excision
- Peripheral arterial puncture
- Digital peripheral nerve blocks
- Placement of anterior and posterior nasal hemostatic packing
- Pre-operative and postoperative medical care for surgical patients
- Removal of foreign body by speculum, forceps, or superficial incision
- Removal of non-penetrating corneal foreign body
- Suprapubic bladder aspiration
- Suture uncomplicated lacerations
- Venipuncture

Infectious Disease Clinical Privileges

Check below the particular privileges desired in Infectious Disease for each facility:

Please check (✓) applicable age categories for each privilege requested.

Privilege Description	Methodist Healthcare – Memphis Hospitals (MHMH) Germantown, Le Bonheur Medical Center, North, South & University, Outpatient Clinics & Diagnostic Facilities				Methodist Healthcare – Olive Branch Hospital (MHOBH)
	Neonates (0-28 days)	Infants (29 days–2 Years)	Children & Adolescents (2-18 years)	Adults & Adolescents (13 & Above)	Adults & Adolescents (13 & Above)
Infectious Disease Core					
Infectious Disease Pediatric Core					
Limitations	Clinical privileges are granted only to the extent privileges are available at each facility.				
	Darkly shaded areas represent privileges not available to any practitioner due to the privilege not being offered by the facility.				

Acknowledgement of practitioner

I have requested only those privileges for which by education, training, current experience and demonstrated performance I am qualified to perform and for which I wish to exercise at the facilities indicated above, to the extent services are available at each facility, and I understand that:

- (a) In exercising any clinical privileges granted, I am constrained by facility and medical staff policies and rules applicable generally and any applicable to the particular situation
- (b) Any restriction on the clinical privileges granted to me is waived in an emergency situation and in such situation my actions are governed by the applicable section of the medical staff bylaws or related documents
